MODEL·MATE

THE TESLA OWNER'S GUIDE

DOES IT FIT YOUR TESLA?

The no-guesswork guide to fitment, care and quick installs — so you buy the right part the first time and keep it running for years. Tesla Model 3 & Model Y.

PLUG IN, MATE. • modelmate.co

SECTION 01 — FITMENT

DOES IT FIT MY TESLA?

PRODUCT	MODEL 3	MODEL Y
HEPA Cabin Filter 2-pack	✓ All years · Highland	✓ All years · Juniper
LED Puddle Lights 4-pack	✓ not Standard trims	✓ not Standard trims
Wiper Blades dedicated set	✓ Model 3 set · all years	✓ Model Y set · all years

NOT SURE OF YOUR MODEL YEAR OR TRIM?

Tap **Controls** → **Software** on your Tesla's touchscreen to see your model, or check the 10th character of your VIN for the model year. "Highland" is the refreshed Model 3 (late 2023 on); "Juniper" is the refreshed Model Y (2025 on). Both are covered.

THE GOLDEN RULE

Every ModelMate Amazon listing states exact fitment at the top of the page. When in doubt, match your model and year there before you buy — or email **hello@modelmate.co** and we'll confirm.

SECTION 02 — CARE

KEEP IT RUNNING LIKE NEW.

HEPA CABIN FILTER

UP TO 24 MONTHS

Rated to last up to 24 months — swap sooner if you drive in heavy traffic, dust or wildfire-smoke areas. A fresh filter restores airflow and keeps the cabin smelling clean.

Watch for: weaker vents, a musty or stale smell, more dust on surfaces.

WIPER BLADES

EVERY 6–12 MONTHS

Rubber hardens with sun and winter salt. Replacing in autumn means you're set before the worst weather. Lift the arms off the glass when parked in frost.

Watch for: streaking, chatter/juddering, skipping or squeaking.

LED PUDDLE LIGHTS

CHECK SEASONALLY

Virtually maintenance-free. If a logo looks dim or flickers, pop the light out and reseat it, and wipe the lens clear of road grime and ice.

Watch for: flicker, a dim or fuzzy projection, moisture on the lens.

SECTION 03 — INSTALL

FITTED IN MINUTES.

01 **Cabin filter — behind the passenger footwell**

Climate off. Slide the front passenger seat back, release the side panel from the centre console and unclip the passenger footwell cover (unplug its two connectors by the plastic, never the wires). Remove the T20 Torx screw (driver in the box) or squeeze the tabs on the filter cover, pull out the upper then lower filter, and fit the new pair with the yellow tab on top and the black side facing the rear. Reassemble, then reset the cabin-filter reminder. Tools are in the box.

02 **Puddle lights — no wiring**

Use the trim tool to gently prise out the factory light under each door. Unclip the connector, plug it into the ModelMate light, press the new unit home until it clicks. Repeat on all four doors. Done in under 10 minutes.

03 **Wiper blades — use Wiper Service Mode**

In Park, turn on Controls > Service > Wiper Service Mode so the arms rise to the service position. Lift each arm only as far as it goes (the arms don't lock up) with a towel on the glass beneath it. Press the tab, slide the old blade off, slide the new one on until it clicks, and push-pull to check. Slide the yellow protective cover off each blade, then turn Wiper Service Mode off.

PREFER TO WATCH FIRST?

Every product has a full step-by-step video. Watch them all at **modelmate.co/install-guides** before you start — then do it yourself with the car in the driveway.

SECTION 04 — SEASONAL

WINTER-READY CHECKLIST.

Ten minutes now saves a cold, foggy-windscreen morning later. Tick these off before the first frost.

☐ **Fit fresh wiper blades**	Old rubber tears on icy glass — start winter with new ones.
☐ **Replace the cabin filter**	Clears fog faster and keeps the heater airflow strong.
☐ **Top up washer fluid (winter mix)**	Use a formula rated below freezing so it doesn't ice up.
☐ **Lift wipers off the glass overnight**	Stops the blade freezing to the windscreen.
☐ **Check puddle lights & lenses**	Wipe off grime and ice so the projection stays crisp.
☐ **Precondition before you drive**	Warm the cabin and battery from the app — defrosts glass, saves range.

PRO TIP

Set a yearly calendar reminder for early autumn: "ModelMate check — wipers + cabin filter." Two quick swaps and you're sorted until spring.

YOUR WELCOME GIFT

WELCOME TO THE CREW.

Thanks for grabbing the guide. Here's 10% off your next ModelMate upgrade on Amazon — plus you'll be first to hear about new product drops and owner deals.
